

Claremont House & Lodge

Part of the Healthcare Homes Group

Caring is at the heart of everything we do...

This purpose built, single storey home opened in 1996. It offers specialised nursing care for the elderly and has an enviable reputation in the local community for its high quality care. In 2009, a 25 bed specialist dementia unit opened in the grounds.

The two units, the nursing home and specialist dementia unit, have a highly-regarded reputation in the local area. The Home has been sympathetically designed to offer en-suite single rooms and welcoming reception areas, all of which are available for our residents and their guests to enjoy. Although our rooms are fully furnished, we encourage residents to bring with them items of furniture and personal effects to complement those already provided so that their room can become an individual retreat.

“The compassion and care shown by all the staff to both my mother, my brother and myself far exceeded our hopes.”

“Although my cousin was not a resident for a long period, she was treated in a warm, welcoming, and caring manner by every staff member. It made what could have been a very uncomfortable time remarkably peaceful. We can think of no way that the service could have been improved.”

“My mother received excellent loving care during her time in Claremont Lodge. The staff were caring and welcoming whenever I visited and always kept me fully informed of any changes concerning her condition. Overall I would highly recommend this nursing home.”
