Part of the Healthcare Homes Group

Caring is at the heart of everything we do...

Hillcroft House, a residential home in Stowmarket that accommodates residents living with dementia, is a Grade 2 listed building that dates back over 200 years.

It has been tastefully extended but retains the link with the original house to provide facilities very much in keeping with the 21st century.

Our new single rooms at this care home, some with en-suite facilities, are tastefully decorated and provide residents with a quality environment for enjoyment of life in later years. These add to the original rooms, which have a variety of views and facilities.

Although all rooms are fully furnished, we encourage residents to bring with them items of furniture and personal possessions so that their room can be a true 'home from home'.

"My father-in-law has received excellent care from all staff at Hillcroft House. The home is always clean and the residents are well supervised and exceptionally well looked after. Staff are always willing to take the time to talk to you and answer any questions. Residents are respected and treated with dignity at all times. Nothing is too much trouble."

"The care my father has received during his time at Hillcroft House has been exceptional. He is very confused at times but is always treated with care and dignity by every member of staff from manager to housekeepers. Not only does Hillcroft House take care of my dad, they are so very kind and lovely to my mum and make every member of our family very welcome each time we visit."
