

The White House

Part of the Healthcare Homes Group

Caring is at the heart of everything we do...

At The White House we provide residential care on a long term or short term basis.

The White House has lovely landscaped gardens with a number of mature ornamental trees, shrubs and other seasonal planting. Within this residential home in Beccles there are spacious single or double bedrooms, all of which are decorated to a high standard and exceptionally well furnished. We encourage our residents to bring items of their own furniture and possessions to complement those already provided and to help make their room an individual retreat.

The home is a beautiful period house with large windows and interesting architectural details. Its elegant and airy reception rooms are particularly welcoming, and you will find that the interior decoration has been carried out to take advantage of the building's individual character. One of the most stunning features of the home is the entrance, which is dominated by beautiful mature trees.

“Thank you for all the care and kindness you have shown to my Mum during the six years she was in your care. While she was receiving palliative care since November you have shown every possible attention to ease her last months. I hope the care home continues to make residents content and happy as Mum was. Thank you as well for showing kindness to me.”

“I would like to say thank you all very much for looking after my Mum over the last 19 months. I always felt she was well looked after and had every confidence in the care she was getting.”

Fancy A Visit?
